Maybe even better than free.

No account or credit card is required to get started. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. This is easy, fast and reliable filehosting! You don't need any kind of premium-accounts. Just upload the file you want to share with your friends and we send you a download link to your file. Simply upload your file and share the link. The cost of that data transfer is covered by your internet service or the data plan on your phone. Files can be downloaded from any computer from our high speed servers. filehosting provides an easy possibility foryou to send large files to your friends. File is free to use with no gotchas and no hidden fees. Using file, you can circumvent those limits without paying toupgrade your team chat service. It is also allowed to link to the download page from websites and communities. There are no restrictions on the number oftimes a file can be downloaded. Unfortunately, we can't make that part free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When youshare a file, data is being transferred between your computer or phone and our servers, then from our servers to your friends device. Any file in any format canbe uploaded and downloaded for free. We have no file size limit. You don't need any special software installed to be able to download your files. You can givethis download link to your friends by mail or instant messenger. Our service is completely free for everyone. If only we could, we surely would! On the otherhand, using file can actually save you money. Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat appshave limits to the size of files that can be transferred within their apps. You decide who you want to share your files with. You can upload any type of file(movies, music, documents, images, zip files and more). So try our free and simple filehosting service now. When you use file, you avoid storing the file you'resending in your cloud storage or mail server. Keep your files private, or send your download links only to friends or family. Alternatively you can choose toshare your download links on blogs, forums and social networking sites.
