Maybe even better than free.

Any file in any format can be uploaded and downloaded for free. If only we could, we surely would! On the other hand, using file can actually save you money. Our service is completely free for everyone. You can give this download link to your friends by mail or instant messenger. So try our free and simplefilehosting service now. Just upload the file you want to share with your friends and we send you a download link to your file. Files transferred the old-fashioned way tend to pile up and be forgotten about, eventually costing you money in data storage fees. There are no restrictions on the number of times a filecan be downloaded.

Files can be downloaded from any computer from our high speed servers. You decide who you want to share your files with. Using file,you can circumvent those limits without paying to upgrade your team chat service. We have no file size limit. No account or credit card is required to getstarted. Alternatively you can choose to share your download links on blogs, forums and social networking sites. The cost of that data transfer is covered byyour internet service or the data plan on your phone. You don't need any special software installed to be able to download your files. Simply upload your fileand share the link. filehosting provides an easy possibility for you to send large files to your friends. Keep your files private, or send your download links onlyto friends or family. When you use file, you avoid storing the file you're sending in your cloud storage or mail server. You can upload any type of file (movies,music, documents, images, zip files and more). Why pay storage fees for a file that you just wanted to send to a friend or colleague? Also, many team chat appshave limits to the size of files that can be transferred within their apps. File is free to use with no gotchas and no hidden fees. This is easy, fast and reliablefilehosting! You don't need any kind of premium-accounts. It is also allowed to link to the download page from websites and communities. Unfortunately, wecan't make that part free. Your wallet will be none-the-lighter! Just so we're all 100% clear here: When you share a file, data is being transferred between yourcomputer or phone and our servers, then from our servers to your friends device.
