# brinks home security safe 5062d manual

Top Answer Anonymous June 02, 2020 245AM 20200602 024507 no have a key but can not open door. If you have a problem and the safe goes into lock out mode, you have to wait at least 30 minutes before trying again. For customer service call 18002238566 press option 5 and wait for a representative. All Rights Reserved. The material on this site can not be reproduced, distributed, transmitted, cached or otherwise used, except with prior written permission of Multiply. It has a key slot, but we never had one. I did such a good job hiding the combination, now I cant find it. Thank goodness theres nothing in the safe but Id sure. I have the key. How can I get the combination Thanks Hi, You can contact Honeywell at 18002238566. They are providing support for Brinks. Both combination and keys are locked inside, is there a default combination Contact brinks they may have a master code to unlock your safe.or try. I have combination, but need key. I have combination, but need key.Answer questions, earn points and help others. Resetting the code can keep your valuables secure. For owners of a Brinks safe, the process requires just a few steps. While these instructions are specific to a Brinks 5070 and a Honeywell 2070 safe, they cover all Brinks safes with an electronic lock. Brinks safes with a manual lock are factoryset and can only be changed by an authorized locksmith. Press and release the button, and your keypad will beep twice and the yellow LED on the keypad with light up. Your passcode can be anywhere between three and eight numbers. The keypad will beep twice and the yellow LED will again light up. Wait three seconds for the lock to engage. Keep the door open. Once you hear the lock, turn the safes handle to verify it will open. If it does not, return repeat the process from the beginning. Scott has a J.D. from Emory University and is a member of the Utah State Bar. He has been freelancing since June 2009, and his articles have been published on eHow.com and Travels.com.<http://epoptavky.com/is/images/FCKeditor/csw-71-sumitomo-manual.xml>

Show Comments. Brinks safes open with a key and code combination. If you need to change your password to a Brinks safe or security box, you can do so by consulting your owners manual or calling the manufacturer, which is now Honeywell. To reset your password, unlock the safe with the currently active code by entering it on the keypad. Youll then hear a chime indicating the safe is unlocked. Youll then hear a chime and see the new code on your LED display for one second. To reprogram the second factory preset combination, repeat the process. If you wish to change your fire safes combination again, repeat the process with your current user combination. You can do this as many times as you like. Both companies keep safe combinations on file and will help access yours. Youll need to provide a model and serial number, both of which are on the right side of your safe. The safe key also has a 4 digit serial number etched onto its metal collar. Fill out your name, shipping address, email address, phone number and the best time to contact you. Include your safes model number, serial number and lock key number. If youre ordering replacement keys, please add the number of keys you require. Honeywell accepts payments by phone or mail in the form of credit cards Visa or Mastercard, check or money order. To retrieve your password history, enter one of your two user codes.To use the emergency key, insert and turn it to the left. Batteries dead on brinks home safe model. cz. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. See All Buying Options Add to Wish List Disabling it will result in some disabled or missing features. You can still see all customer reviews for the product. Please try again later.Key AND keypad must be used to open, but I just leave the key in it didnt want to search for key each time and it works just like a electronic keypadonly safe. Also has a special key to open it without keypad. I contacted Amazon and they immediately sent out another and instructions to return mine. The second safe was even more badly dented and I returned it instead and kept the first. It works and looks fine where I have it. I was impressed with Amazons responsiveness and customer service.Please try again later. Please try again later. Rich 4.0 out of 5 stars It can be found cheap if you search around. Its perfect for personal items and home business type paper work, computer backup and offering protection from regular people, kids and average thieves. Its not for protecting the Crown Jewels or thousands and thousand of dollars of cash or jewelry but if you have that kind of money your probably not looking at this small safe anyways. For any real protection it MUST be secured to the floor otherwise a thief can just pick it up and carry it away to take their time and work on it at their place. I am not a safe cracker or criminal but it looks like, and this is only a GUESS, that if someone had time and privacy it could be forced open or might open if dropped from real high. Thats why mounting it to the floor with the included hardware is critical in my opinion. The only downside I found is that the interior is much smaller than it looks from the outside.

I know this is needed or it would not be a safe or fireproof but it caught me by surprise.Please try again later. Please try again later. LORENZA SHEARIN 1.0 out of 5 stars Please try again later. Please try again later. ShIR SHOPSALOT 1.0 out of 5 stars They arrived in damaged boxes. One of the metal support legs broke off. The door to the safe comes off the hinge if you flip the safe upsidedown. I was able to return both safes through amazon with no hassle.Please try again later. Please try again later.
