BC 4.0 out of 5 stars Some games just use the big red button, which the 2yr old can play, others require the color buttons which our 5yr old is getting better at. The robot characters are funny and the game music is pretty catchy for little kids. Unless your teenager likes silly stuff, I don't recommend it for that age group. The controller are lightweight but durable. We drop them all the time and so far they all still work. after about 2 years. It came with just the game. No controllers. It is completely useless! If it's only the game don't list under bundle it gives the sense that the controls come with. The product description says more than once that they are included but only the game was sent. I'm sure the game is fun but you are not able to play it without the buzzers. It was only the game in the box with the manual. Which when I complained about it they said that was the bundle. The game, case and manual. smh No that's how it suppose to come!!! The bundle means it comes with the controllers as they said it does along with the included bundle picture. Falsely advertised!! This was NOT a bundle and did NOT come with the remotes.
